

Diamond Select 30/70 Sandy Loam Mix

Diamond Select 30/70 Sandy Loam Mix is a unique blend of sandy, silt, and that has been specifically designed for groundskeepers and coaches desiring high quality sandy loam infields. This soil mix will enhance the overall performance of any infield in wet regions. It is a quality soil for wet environments, customized to meet a groundskeeper's expectations and level of play. Screened down to 3/16", this soil offers higher performance in regions with more than 35" of annual rainfall.

Diamond Select 30/70 Sandy Loam Mix provides a quality playing surface to programs looking to increase the sand content of their infield. It is an excellent solution when trying to restore a clay based infield. With proper moisture management, this material will hold its shape and recover extremely fast. Though this blend was designed for restoring existing soils, it is an outstanding playing surface for any program in extremely wet environments.

Diamond Select 30/70 Sandy Loam Mix Tips:

- 1.) The most important aspect of maintaining a sand infield is moisture management. Even though 30/70 is meant to withstand extreme moisture, it will turn very soft during long dry periods.
- 2.) Remember to add amendments to your soil. Though our custom soil blends have been designed to meet a professional's standards, soil amendments assist with moisture management, absorption, soil strength, and recovery.

Specifications: 70 pounds per cubic foot (Loose) = 1.05 Yards:1 Ton
84 pounds per cubic foot (Compact) = .88 Yards:1 Ton
2.75 Cubic Yards covers 1000 sq. ft at a depth of 1"

Availability: **Bulk**—5, 10 , 15, 24 and 30 Yard Truckloads
Supersacks—2,200 lbs. each, 1 per Pallet

Recommended Application when renovating an infield:

Diamond Select 30/70 Sandy Loam Mix should be put down to a depth of 3" – 6" on a standard infield renovation. Once laid evenly, we suggest watering your infield with ½ inch of water, rolling it with a 1000 pound roller to achieve proper compaction, and then laser grading it out at 1/2%.

**INFIELD
Renovation**

Baseball Coverage	Infield	1" Depth	3" Depth	6" Depth
90' Bases (Grass Infield)	11,550 sq. ft.	32 Yards	96 Yards	192 Yards
60' Bases (Little League)	3,850 sq. ft.	11 Yards	33 Yards	66 Yards
Softball Coverage	Infield	1" Depth	3" Depth	6" Depth
65' Bases (Slow Pitch)	9,200 sq. ft.	25 Yards	75 Yards	150 Yards
60' Bases (ASA Fast Pitch)	8,300 sq. ft.	23 Yards	69 Yards	138 Yards
