

Drying Agent Options

PlayBall! Fine

PlayBall! Fine is a special kiln-fired diatomaceous earth (DE) that has been hardened for application on baseball and softball fields. One of the world's most highly absorbent minerals, PlayBall! Fine absorbs up to twice as much water by weight as compared to its calcined clay cousins.

Pro's Choice Rapid Dry

Stay in the game with Rapid Dry drying agent. These tiny granules are designed to quickly wick away excess water from your infield and keep your games playing safely and without delay.

Louisville Slugger® Game Time H2O b Gone™

Louisville Slugger® Game Time H2O b Gone™ is a calcined clay product used to quickly dry puddles and muddy conditions. The finer gradation has more surface areas to dry the field faster, reducing rain delays. This product will not stick to cleats and is easily incorporated into the infield.

Specifications and Availability
