

# TRIPLE PLAY RED INFIELD CONDITIONER

**Triple Play Red Infield Conditioner** is a unique blend of vitrified shale particles that have been designed to enhance the stability of an infield. With a rich, red color that adds focus to an infield and adds contrast to ground balls, this product is a beautiful addition to any infield. It is exceptional as both a Top Dressing and Soil Conditioner.

The design philosophy behind using Vitrified Shale as an **infield conditioner** is to improve stability, improve traction, heightened recovery, and improve color.

**Triple Play Red Infield Conditioner** gives a field the professional look that all coaches and players require. Though it has been designed to meet performance expectations of Professionals, Triple Play Red Infield Conditioner is affordable for all levels of play. The screened particles are ready to use, never break down and stabilize all types of saturated soils.

## TOP DRESSING

### Recommended Application when used as a Top Dressing:

Spread 1/4" evenly over the surface of your infield, lightly rake, and then play.

### Coverage Rates:

2.25 Tons will cover 1,000 sq. ft. at a depth of 1 inch (1.3 yards/ton)

## INFIELD CONDITIONER

### Recommended Application when used as an Infield Conditioner:

Amend Red Infield Conditioner into your soil profile at a rate of 25% by Volume. For volume needed, see coverage chart below:

	Infield	1" Soil	3" Soil	6" Soil
<b>Baseball Coverage</b>
